

Weehawken Creative Arts Presents Photo Classes In Ouray by Steve Traudt

2010 Classes!

Dick Colby, Assistant Instructor

Photoshop Elements Beyond WOW... New Hands-on Class! Saturday, March 20, 9:00 to 4:30 Brand new, hands-on training class for Photoshop Elements! Bring your laptop computer (PC or Mac) with either Elements 6, 7 or 8 installed (bring an external mouse, mouse pad and your AC adapter too). This class is the 3rd in a series and features all new exercises which go *beyond* Steve's Basics and WOW classes. Gain even more control as you learn intermediate and advanced techniques. Steve will draw on his years of teaching Photoshop and show you many great secrets. You receive extensive notes and a CD with the class images for later reference. **You NEED a basic working understanding of Elements; this is not a Basic class.** Steve's easy going teaching style will soon have you saying, "Double Wow" Don't miss it!

Rebel With A Cause... Using Your Digital Rebel and D Series Canon cameras, Saturday, May 15, 9:00 AM to 4:30 PM. Exciting class for Canon Digital Rebels, including XT; XTi; XSi, XS & T1i. This class can also benefit owners of Canon D series bodies such as: 20D, 30D, 40D and 50D. (not for Canon "Mark" series bodies). Extensive class notes provided via CD. Bring camera and instruction book. You learn the various controls, settings and adjustments. We explain the Basic and Creative "zones" and cover flash, lenses and exposure. Gain CONTROL of these wonderful cameras!

Adobe Lightroom 3.0 Hands-on Workshop... New class. Saturday, May 22, 9:00 to 4:30 PM.

Adobe Lightroom is an amazing application that makes your digital workflow more efficient. It does editing, processing, and output preparation. It is also a complete photo management software solution and is especially great for photographers who shoot in RAW. It interfaces seamlessly with Photoshop. For this class, basic computer literacy is essential. Bring a laptop computer, PC or Mac, with Lightroom 3 loaded (demo version ok). More details on what to bring will be e-mailed to participants before class.

Digital SLR Hands-On Workshop... New class. Saturday, June 26, 9:00 to 5:00 PM. Join Steve and Dick for a great day of hands-on learning. We begin with a program covering topics such as depth of field, exposure, histograms, composition and more including creative techniques. We then venture forth into the surrounding area to practice our skills. We return later to download and review our images. Open to any digital SLR camera, the day promises to be fun and productive. Bring a laptop if you have one. Also consider taking the HDR class the next day for a complete program.

Mastering HDR Hands-On Workshop... Sunday, June 27, 9:00 to 4:00 PM. HDR is the hot topic these days and with good reason: it produces very dramatic images! HDR or "high dynamic range" lets us photograph formerly impossible scenes. As usual, Steve demystifies the process to have you producing jaw-dropping results! Hands-on class: bring your camera and tripod. Bring your laptop too with Photomatix Pro loaded; free trial at: www.hdrsoft.com. It is helpful if your laptop also has Photoshop (Elements or CS). This is cool stuff; sign up soon!

Coming July 22-25...

San Juan Majesty Wildflower Workshop
